

Advance Your Business with Creative and Innovative Solutions

1-Day Workshop, August 11, 2008, 9.30Am-4.00PM, at
Third Innovative Conference on Embedded Systems,
Mobile Communication and Computing, Infosys, Mysore, India.

Presenter:

Your Friend
Philosopher and Guide
Dr. Nalin Sharda,
Victoria University, AUSTRALIA.

Nalin Sharda gained B. Tech. and PhD. degrees from IIT Delhi. Presently he teaches and leads research in creating innovative IT solutions with Multimedia and Internet Technologies at Victoria University, Australia. He has held visiting faculty positions in Asia, Europe and USA.

Dr. Sharda has published the *Multimedia Information Networking* textbook, and over 100 papers and other articles. His passion is to create innovative IT applications for diverse application domains including Tourism, Storytelling, Teaching and Learning. Nalin has presented over 50 seminars, lectures and courses in Austria, Australia, Germany, Hong Kong, India, Pakistan, Japan, Sweden, Switzerland, UAE, and USA. For further details visit <http://sci.vu.edu.au/~nalin/>

About the Workshop:

Everyone is capable of being creative; however, most people do not exploit their full creative potential, as they do not have a clear model to guide the flow of their 'creative juices'.

This workshop will show you how to spark your creative potential and sustain the development of innovative solutions for your organisation; using some long-standing approaches, and some novel models developed by Dr. Sharda.

Who Should Attend:

If you want to arouse your creativity and find innovative solutions for your company's current challenges, this workshop is for you. You could be an upcoming leader, Research Director, CTO or the CEO of your organisation.

Required:

Some experience in solving industry problems is desirable. This will be a participatory workshop, be prepared to share and advance your understanding of this dynamic field.

Included: Inspiration, workshop notes, and refreshments for the day.
